User:DAKSH MAHESH RAI

From Wikipedia, the free encyclopedia

Wikipedia does not have a user page with this exact name. In general, this page should be created and edited by User:DAKSH MAHESH RAI. If in doubt, please verify that "DAKSH MAHESH RAI" exists.

- Start the User:DAKSH MAHESH RAI page.
- Search for "DAKSH MAHESH RAI" in existing pages of namespace User.
- Look for pages within Wikipedia that link to this title.

Other reasons this message may be displayed:

- If a page was recently created here, it may not be visible yet because of a delay in updating the database; wait a few minutes or try the purge function.
- Titles on Wikipedia are case sensitive except for the first character; please check alternative capitalizations and consider adding a redirect here to the correct title.
- If the page has been deleted, check the deletion log, and see Why was the page I created deleted?

## 1) DESCRIPTION ABOUT WIKIPEDIA AND ITS FEATURES

Wikipedia was launched on January 15, 2001 by Jimmy Wales and Larry Sanger. Sanger coined its name as a portmanteau of "wiki" and "encyclopaedia". It was initially an English-language encyclopaedia, but versions in other languages were quickly developed. With 6.2 million articles, the English Wikipedia is the largest of the 317 Wikipedia encyclopedias. Overall, Wikipedia comprises more than 55 million articles, attracting 1.7 billion unique visitors per month.

### FEATURES:

Wikipedia has been criticized for its uneven accuracy and for habitually exhibiting systemic bias, including gender bias, with the majority of editors being male. Edit-a-thons have been held to encourage female editors and increase the coverage of women's topics. In 2006, Time magazine stated that the open-door policy of allowing anyone to edit had made Wikipedia the biggest and possibly the best encyclopaedia in the world, and was a test meant to the vision of Jimmy Wales.

The project's reputation improved further in the 2010s as it increased efforts to improve its quality and reliability, based on its unique structure, curation and absence of commercial bias. In 2018, Facebook and YouTube announced that they would help users detect fake news by suggesting links to related Wikipedia articles.
